TAREA (ASSIGNMENT)

The purpose of this assignment is to push you to move into leadership roles within our day to day activities. Through this activity you will have the opportunity to step into our shoes! Each day, two students will guide and orientate the group about the activities of the day. This involves knowing the schedule, anticipating future movements, knowing where the bathrooms are located, making sure students arrive in time, introducing the group to the presenters, and thanking presenters for taking their time to meet with us. The day you and your partner are the guides, try to be proactive in keeping the conversations flowing and creating opportunities for learning. Your grade for this assignment will be based on three factors: (1) preparation, (2) engagement with other students and speakers, and (3) attempts to create learning moments.
